

# **RBD CATALOGUE PHOTOGRAPHY**

## **Equipment List:**

- Camera phone (Always have in charging case- CHARGED and with a screen protector)
- Extra phone and/or charger
- Photography light and batteries charges
- Photo backdrop boards (both white and black backdrop boards)
- Jewelry stands and hooks
- Lint roller or duster
- Distinguish marketing photos. These will be put in the marketing folder under the sale in the cloud. This needs to be either photographed in the photo booth or with the estate in the background.

## **Set up your photography booth:**

- Choose the white backdrop if you are photographing more darker pieces. If the pieces are mostly clear glass or white, silver, or light colored, use the black backdrop).
- To shoot an item: - remove the lot label if it is in the shot!
- Move it to the photo booth if it is high quality, or within the first 200 lots, and small enough - position the item with the most flattering angle
- Make sure you use your photography lights for the best lighting. Do not use the flash if at all possible
- Use the jewelry stands and hooks to shoot high end and luxury apparel such as fur coats, leather jackets, etc.
- Upload your photos resized photos to AuctionFlex
